

Agata Lipiak

About me

I am 27 years old and since last year I have been intensively learning programming in JavaScript in order to get a job as a Front-end Developer. I am a very mobilized person who achieves his goals, which is why I have successfully completed so many projects in my current job. Programming has become my passion and I would like to develop my skills in this direction.

Skills

- React, Redux, Styled Components
- JavaScript, ES6+
- GitHub
- CSS3
- HTML5
- SASS
- Node.js and PostgreSQL
- Interpersonal skills
- Team work
- Work planning and organization
- Setting and achieving goals

Projects

I used the knowledge and skills in programming to create the following projects:

My portfolio – a website presenting my programming skills. To create it, I used technologies such as React and Styled Components.

<https://www.alipiak.com>

Recipe organizer – a website designed for storing, adding and managing recipes. It also allows you to plan recipes for the day and prepare a shopping list. To create it, I used technologies such as React, Redux and Styled Components
