Agata Lipiak

ABOUT ME

I am 27 years old and currently work as a Product Engineer in a manufacturing company. I have been studying JavaScript extensively for half a year in order to become a Front-end Developer. I am a very mobilized person who achieves his goals, which is why I have successfully completed so many projects in my current job. Programming has become my passion and I would like to develop my competences in this direction.

Wrocław University of Technology, Faculty of Mechanical Engineering, second-cycle studies, full-time

BACHELOR DEGREE

MATERIAL ENGINEERING

Wrocław University of Technology, Faculty of Chemistry, first-cycle studies, full-time

WORK EXPERIENCE

PRODUCT ENGINEER

march 2020 - current | STELWELD

PROCESS ENGINEER

august 2017 to march 2020 | STELWELD

SKILLS

- **React, Redux, Styled Components**

I completed two React courses on the eduweb.pl platform.

- **JavaScript, ES6**

I completed several JavaScript courses on the platforms: codecademy.com, eduweb.pl and wesbos.com.

- **GitHub**

I put my projects in the repository on https://github.com/AgaLip-js

- **CSS3**

I finished the Flexbox course on the eduweb.pl platform and the CSS course on codecademy.com.

- **HTML5**

I completed an HTML course at codecademy.com.

- **Interpersonal skills**

My interpersonal skills are highly developed thanks to several years of work as an engineer, where I am responsible for coordinating the activities of other departments.

- **Team work**

As an engineer, I lead and take part in optimization and implementation projects. Teamwork is my strength.

- **Setting and achieving goals**

As a process engineer, I successfully implemented several optimization projects, achieving the set goal.

- **Work planning and organization**

I develop my skills every day at work, starting with planning the most important and urgent tasks. I participated in strategic workshops on organization and planning.
